- Amazing sea views
- Peaceful location
- Modern design

With very few sea view plots left in Javea this is a rare occasion to buy a building plot with an existing project and building licence.

The project design of a 350m² four bedroom property makes the most of the 180 degree sea views. The plot is located on the border of the protected Granadella National Park at the very top of the exclusive El Tosalet urbanisation.

One of the finest locations in Javea; the jewel of the Costa Blanca.
