This 5000m² plot has just been released for sale by Plots Direct and is probably the only remaining large south facing plot in Javea with wonderful sea views.

The plot is only a short walk to Ambolo beach and is also close to the stylish restaurants, international supermarkets and bustling bars of Balcon al Mar.

This is a perfect location for constructing a magnificent trophy property with commanding views of the Costa Blanca coastline.

Or the site could be re-parcelised into smaller building plots.

The site benefits from dual access giving two separate entrances from different roads.

Plans and full documentation is available upon request.

This unique location deserves a spectacular villa.
