Plots like this are very rare now.

This is a chance to buy a 5.000m² slightly sloping plot with sea views, just a short drive from the famous golden sands of El Arenal beach in Javea.

The plot has amazing views of the Mediterranean which will be further enhanced from an elevated villa and pool terrace.

Highly recommended for a client looking for a plot to design and build a large family villa with gardens close to the beach, bars and stylish restaurants of El Arenal.
